

Gallagher Protective Reader Covers

Designed to cover a range of Gallagher card readers, the Gallagher Protective Reader Covers help protect readers against vandal attack and harsh environments.

Designed to be tough, and look tough, the Gallagher Protective Reader Covers provide increased protection for the following readers:

- > Gallagher T Series Readers
- > Gallagher Prox Readers
- > Gallagher Prox Plus Readers
- > Gallagher Intelligent Door Terminals

HOW THEY WORK

Gallagher Protective Reader Covers are manufactured from engineering grade plastic, specifically designed to increase reader resistance to vandal attack and adverse weather conditions.

The Gallagher Protective Reader Covers are secured to the building over the top of the readers by security screws.

Taking the brunt of an attack or harsh weather, the Covers provide a barrier and help protect the readers beneath. In the event that a Cover becomes damaged, it is anticipated that the reader beneath will continue to function as normal and that only the Cover will need replacing.

The metal keys on the Gallagher Prox Plus and Gallagher IDT Covers are made of stainless steel to provide increased durability and resistance to vandal attack.

COLOUR

The Gallagher T Series Vandal Covers are available in black, with the Gallagher Prox, Prox Plus and IDT protective covers available in black or smoky grey.

GALLAGHER PROTECTIVE READER COVERS

Technical Specifications

GALLAGHER VANDAL COVER FOR GALLAGHER T SERIES READERS

SEPTEMBER 2011

Dimensions	Gallagher T10 Height	132 mm
